FOR IMMEDIATE RELEASE

### QuoteWerks Now Integrates with ACT!™ 2006

**Orlando, Florida USA**—Aspire Technologies, Inc. announced today that QuoteWerks™ 4.0, the premier sales quoting software, has become the first and only ACT! Add-on partner offering a sales quoting software that integrates with Sage Software's® ACT! 2006.

According to Aspire president John C. Lewe IV, "We successfully integrated with previous versions of ACT! and worked diligently on this current enhancement to ensure that our existing customers using ACT!, as well as future users of QuoteWerks, continue to have the ability to produce price quotes using contact information retrieved from ACT! 2006."

The latest QuoteWerks release adds functionality to the existing ACT! 2005/2006 product line by introducing integrated support for Opportunities, Call Backs, Meetings and To-Dos. This new functionality will streamline the quoting process for sales professionals who utilize ACT! in conjunction with QuoteWerks.

QuoteWerks sales quoting software empowers businesses to increase their productivity and close more sales by simplifying and speeding up their price quoting/estimating process in the office and on the road. QuoteWerks communicates with industry-leading contact management software such as ACT!™, GoldMine®, salesforce.com®, SalesLogix®, Outlook®, Maximizer®, KnowTia®, and TeleMagic® so customers can seamlessly use QuoteWerks with their existing customer management systems. Thus, the hassle of retyping customer information is eliminated. Orders can be exported to industry-leading accounting software like QuickBooks® and Peachtree®. The award-winning program truly redefines and revolutionizes the sales quoting process.

Aspire Technologies, Inc. (a privately held company) was founded in 1993 under the name Creative Software. The company focuses on quoting/ordering software integration with leading contact management software.
