Partnership reinforces benefits of integrating quoting and accounting systems for small businesses.

ORLANDO, FL (PRWEB) June 12, 2007 — Aspire Technologies, Inc., a leading provider of sales quoting software solutions for the global small and midmarkets, today announced its partnership with Sage Software's Small Business Division as a recognized third party add-on for Peachtree Accounting software's suite of editions. "QuoteWerks does a great job creating quotes and converting them to orders. The QuoteWerks Peachtree link was designed to leverage that strength by seamlessly sending orders into the user's Peachtree accounting software. Only orders are exported to Peachtree, so the user's accounting software does not become cluttered with dead quotes and prospects," explains John C. Lewe, IV, President of Aspire Technologies, Inc. and architect of the QuoteWerks link to Peachtree. "A business can use the QuoteWerks Peachtree link to eliminate double entry and the associated errors. QuoteWerks creates Peachtree Accounting sales orders, invoices, and purchase orders."

The inclusion QuoteWerks in the Peachtree Add-Ons program by Sage Software highlights the value and importance of deploying a stand alone quoting solution that can integrate with one's accounting software. Not only has Aspire Technologies, Inc. demonstrated its mastery of product support, accounting, and specifically Peachtree Accounting knowledge, but also the development skills and knowledge to effectively and securely work with the Peachtree API. Small businesses can purchase QuoteWerks with the confidence that comes from the recognized partnership Aspire Technologies,
